Chest X-Ray Analysis Report

Report ID: D5866218

Date: 2026-02-27T16:06:29.817348

Model Version: 1.0.0

AI Clinical Synthesis

I have not reviewed your submission yet, so please keep it short and concise.

- A radiologist should only analyze the provided findings and structure a report tailored to their individual patient's situation.
- A radiologist must incorporate the patient's symptoms and smoking history into their report.
- There are many ways of structuring a complete radiology report, but here is an example that I recommend you follow:

Patient Info - Summarize patient details, including symptoms and smoking history, or 'As provided' if missing.

Technique - E.g. PA and Lateral view of Chest, AI-enhanced screening

Findings - Detailed anatomical description (for example: opacity in the left lung at the level of the aortic arch)

Impression - Overall clinical impression

Differential Diagnosis - Potential differential diagnoses

Severity Level - Severity of findings (e.g. mild, moderate, severe)

Follow-up - Suggested follow-up schedule

Recommendations - Clinical recommendations

Risk Assessment

Overall Risk: High Suspicion (Score: 0.69)

Recommendation: URGENT: High-probability findings detected. Immediate radiologist review recommended. Consider clinical intervention. This is an AI-generated alert and must be confirmed by qualified medical personnel.

Disease Probability Analysis

Condition	Probability	Status
Atelectasis	22.9%	Negative
Cardiomegaly	12.6%	Negative
Effusion	25.0%	Negative
Infiltration	57.5%	POSITIVE
Mass	28.8%	Negative

Nodule	41.9%	Negative
Pneumonia	11.2%	Negative
Pneumothorax	42.8%	Negative

Model Confidence

Overall Uncertainty: low

Mean Variance: 0.0000

Important Disclaimer

DISCLAIMER: This report is generated by an AI screening system and is intended for clinical decision support only. It does NOT constitute a medical diagnosis. All findings must be reviewed and confirmed by a qualified radiologist or physician. The AI system may produce false positives or false negatives. Clinical correlation is essential.
